

Our Services

We will collect your pet from home or the vets and transport them to our premises in pet beds or carrying baskets by our custom-adapted Volvo hearse. At all times, your pet will be treated with dignity and respect. You need to inform the vet that you wish to use our services at the time of your final visit. If you prefer, we will arrange to visit you at home with the vet where your pet can go to sleep in a stress-free, familiar environment.

You may also bring your pet to us by prior appointment. We have a purpose-built farewell room where you are welcome to spend some time in peace and quiet.

We only offer genuine individual cremations so you can be 100% sure that the ashes you receive from us are only those of your pet. We provide a certificate of individual cremation with all returned ashes.

We offer a full range of caskets and other tributes including environmentally friendly scatter pouches for you to bury or scatter your pet's ashes in some favourite place as you wish.

It is imperative that you contact us as soon as possible after your pet's death to arrange cremation. If you don't, your vet may make the decision for you and you probably won't get the service you really want.

Funeral Services

Compassionate, Dignified & Caring...

The perfect way to say goodbye

About Us

High Peak Pet Funeral Services is an independent family-run business based in Buxton, Derbyshire. As pet owners ourselves, we have experienced the grief which comes from the loss of a much-loved pet.

Our aim is to try to soften that grief in others by our compassionate, dignified and caring treatment of your pet through all stages of the cremation process and by allowing you to spend time alone with them in our purpose built Farewell Room should you wish.

We are situated at Harpur Hill, Buxton in Derbyshire on the outskirts of the beautiful Peak District National Park. Our premises have been newly refurbished and converted to provide first class facilities as a local pet crematorium.

We are a family run, local organisation. As such, we take pride in what we do and how we do it. We know that the success of our business depends on the quality of service we provide to our clients.

We are members of the Association of Private Pet Cemeteries and Crematoria www.appcc.org.uk, the only organisation in the UK setting standards for the pet bereavement industry. We fully adhere to the codes of practice which can be found at <http://www.appcc.org.uk/cop.htm>

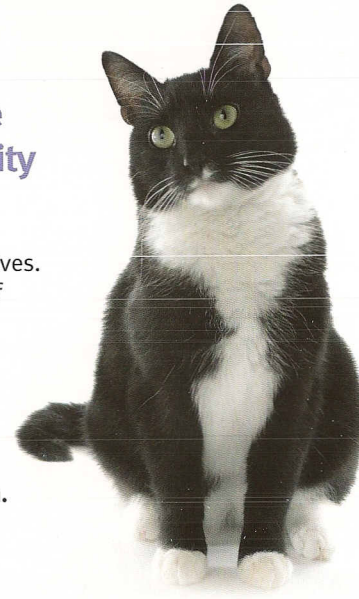

Please contact us early - we can contact your vet to make sure your wishes are carried out.

FAQs

Q. Will my pet be treated with dignity and respect?

A. We are pet lovers ourselves. We have recently lost all of our pets and we fully understand the heartache and sense of loss that this brings. We guarantee to treat your pet as we would our own – with **dignity, care & compassion.**

Q. How will my pet be transported to your facility?

A. We will transport your pet in one of our pet beds or carrying baskets using our converted Volvo estate car. We will transport them in your pet's own bed or basket if you prefer but the bed and bedding will have to be returned to you afterwards. We will not transport clinical waste in this vehicle at any time.

Q. How do we know that the ashes you have returned to us are those of our pet?

A. As members, we fully adhere to the codes of practice laid down by the APPCC and we only carry out individual cremations. The cremator will be fully cleaned out before each cremation and all ashes are recovered afterwards. You will be issued with a certificate guaranteeing that the ashes you receive are only those of your pet.

Q. We are from outside the area. Can we bring our pet to you and wait for the return of the ashes?

A. You are more than welcome to bring your pet to us. You must contact us first to ensure that we will be able to meet you. We offer a same day or immediate cremation for a small extra charge.

Q. Can we inspect your premises to ensure it is suitable to receive our pet?

A. We welcome inspections by prior appointment and are confident that our premises will meet your needs. For health and safety reasons, you will not be allowed into the cremation area whilst cremations are being carried out.

Q. We are thinking of using a service provided by our vet. What should we take into account?

A. In all probability, your vet will use the services of a large national pet crematorium from outside the area who will not be a member of the APPCC. They may not be able to guarantee the ashes returned will only be from your pet.
